No. 18-76

TITLE/SIGNIFICANCE:

ASSOCIATED SS-X-20 R/D MISSILE ACTIVITY AT GLADKAYA ICBM LAUNCH SITE 3

COMMENT: Two more SS-X-20 missiles were fired from the Gladkaya area in February 1976.

[redacted] two van mounted SHIP WHEEL radars were operation 25X1  
positioned on the west launch pad of Gladkaya ICBM launch site 3. Two canisters from  
firings in August, 1975 remained near the east missile ready building. [redacted] 25X1  
the SHIP WHEEL radars were removed and the two additional spent SS-X-20 missile canisters  
were next to the other two SS-X-20 canisters. The presence of the radars on the west  
launch pad and two SS-7 erectors and vehicles on the east launch pad suggest that this

GRAPHIC launch site was not the firing point for the new launches. (See IEG PI Notice  
No. 17-76)
